

Project Description

- The California Department of Transportation (Caltrans), working in cooperation with Stanislaus County and the Stanislaus Council of Governments, proposes to construct an access-controlled facility within the western central portion of Stanislaus County, from Gates Road/Paradise Road to Dakota Avenue, post miles 4.5 to R11.7, located two miles west of the City of Modesto.
- This project (State Route 132 Dakota Avenue to Gates Road) would be an extension of the State Route 132 West project. Phase 1 of this project is currently being constructed on a new alignment in the City of Modesto. There are four Build Alternatives under consideration on either the existing State Route 132 alignment or a new alignment.
